Dear Mr. Nobel

My name is Pam Berg I own my home on 3052 Anderson Ave.

I would like to put my 2 cents in on the ordinance. I oppose the solar ordinance. I feel we re loosing our farm lands already, we don't benefit from this as the power goes to Calif. along with our natural gas, and water. We need our farm lands.

We need not depend on foreign countries for our food.

So there is my 2 cents.

| sincerely,
Pam Berg

Erik,
I just finished going through the Proposed Solar Ordinance and it looks like a very well thought out and written document. As a homeowner here in Klamath Falls I appreciate the effort you put into thinking about future development and the consequences of that development. As a layman I also appreciate that it was written in a straightforward and understandable way. Well done.
