Subject: Proposed Solar Ordinance

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Erik:

Neither my husband Charles nor I are in favor of commercial solar systems. We believe that on a small scale for personal use it is acceptable but, on a large scale it simply has to effect global and regional climate. Until more research has been done on this people should consider the domino effect of giving up acres and acres of farm land. Perhaps a better use of their (commercial) money would be to spend it gathering water.

Sincerely

Tahseen Paulson

TO: PROPERTY OWNER / STAKEHOLDER
FROM: ERIK NOBEL, PLANNING DIRECTOR
SUBJECT: PROPOSED SOLAR ORDINANCE

The Klamath County Planning Commission has been working the past two years to develop an Ordinance to create siting standards for commercial solar facilities in Klamath County. The reasons for creating this ordinance are:

- Protect resources within the County by:
 - Excluding development for commercial solar facilities on properties consisting predominantly of soil within the Class 1 to 3 range.
 - Excluding development for commercial solar facilities on properties within wildlife habitat areas designated as Crucial Winter Range by the Oregon Department of Fish and Wildlife.
 - Preserving existing water rights.
- Collaborate and coordinate with property owners, stakeholders and agencies, and
- Encourage renewable energy production.

You are receiving this notice because either you are a property owner that has lands that consist predominantly of soil within the Class 1 to 3 range or you have lands within the Crucial Winter Range or you have been identified as a stakeholder. Whatever the case may be, Klamath County wants to hear from you. Attached is a copy of the proposed ordinance. Please look it over and let us know if you have any questions or concerns.

You may submit your comments or questions by email (enobel@klamathcounty.org), letter (Klamath County Planning, 305 Main Street, Klamath Falls, OR 97601) or by giving us a call (541-851-3648). If you call, staff will take some brief notes to share with the Planning Commission. If you would like to speak directly to the Planning Commission, you will have the opportunity to do so during the Public Comment period at the Planning Commission meetings on August 24 or October 26. The meetings are open to the public and held at 6pm in the County Government Center, 305 Main Street, Klamath Falls, Oregon.

This Ordinance will be considered for adoption on October 26, 2021.
